MEMORANDUM FOR: Chairman, National Intelligence Council
FROM: Director of Central Intelligence
SUBJECT: Global Economic Issues

Harry:

In earlier conversation with you I expressed my view that the intelligence community should do an annual estimate on our stake and position in the global economy in much the same way that you do for the military balance. The attached represents the degree to which this concept has painfully evolved. I would like your evaluation of the concept and how it might be more usefully developed, and how we might go about getting that done.
